April 12, 2005

Dear Valued Customer,

First and foremost, your support for MRC over the last 11 years is much appreciated for which we are very grateful. It is mainly because of valuable customers like you that MRC was able to endure the economic hard times and successfully complete 11 years of evolution. Combined with your loyalty, we are also fortunate to have the support of a very professional and dedicated staff.

MRC is now pleased to announce its expansion into Texas, with operations planned to commence by end of April, 2005. Our 2<sup>nd</sup> location is:

2435 109th Street, Grand Prairie, TX 75050.

The facility is just south of DFW International Airport and centrally located between the cities of Dallas and Fort Worth. Initially, this location will be set up for stencils fabrication and will serve customers in Texas and the neighboring states. As we grow this operation, we plan to expand our Tape & Reel services as well.

While MRC always strives at delivering excellence on time, we are also diligently working on providing web-based online ordering capabilities to our stencil customers ([www.m-r-c.com](http://www.m-r-c.com)). Once this is in place, it will help streamline the stencil ordering process. We anticipate having this system up & running by May, 2005.

Please do not hesitate to contact me for any concerns or questions you may have about this expansion. Thank you for all your past support and look forward to strengthening the relationship.

Sincerely,

B.J. Desai  
President and CEO
